How are you submitting the photo of your friend?

On a DVD-R or DVD-RW On a CD-R or CD-RW
On a floppy disk Already printed

We recommend submitting your photo on a CD-R or CD-RW because it allows enough space for a high-quality image. Floppy disks have only a small amount of memory and so images stored on them are usually of a poor quality. Photos that have already been printed will lose resolution when being scanned into our systems.

Would you like us to return your prints/CD?.....

If you are submitting on a DVD, CD or floppy disk, please enter the file name of the particular photo you want us to use (if you know it):

Please state which head you want us to merge into the Famous Friends Photo (eg "second from the left")_____
